### Look for these features in CCTV cameras for video surveillance

When you visit the market to get CCTV equipment to install at your home or office, you always want to make the best choice in your budget. CCTV camera systems are used for better security and peaceful life at your place. In case of any crime or criminal activity, video footage can be used as good evidence. It is always beneficial to prevent the risk of theft, crime and other illegal activities at your place. Therefore, you should always make a right decision to install CCTV systems at your place for better security.

Once you are in the market to purchase the CCTV camera units, it is

essential to make the right choice. Today, a complete range of CCTV cameras is available in the market for customers therefore, it is always difficult to make the right decision. Whether you can go with budget-friendly, or you can prefer expensive and advanced units for better security. To make a right choice, you should always compare the following features of the cameras:

- **Resolution of the camera:**  
Resolution of CCTV camera has been always most important feature when you want to monitor any kind of activity with it. Whenever you choose [video surveillance installation services](#), always go with a better resolution camera to get better video quality. However, you will need to spend more money to find a camera unit of higher resolution to install at your place.
- **Internet viewing resolution and frame rate:**  
Today, you do not have to stick with your computer system for video surveillance by using cctv cameras. It is possible to use the live streaming feature on your mobile devices anytime anywhere by using internet services. With video quality, it should also provide good resolution for internet viewing of all the videos. It will be good to get a CCTV camera system with hire a frame rate for better viewing experience with online streams.
- **Features for night recording:**  
It will be better if you prefer a CCTV camera with night vision features. Most of the security threats can happen during the night and you never want to compromise on the visibility of the camera at night. To find 24/7 CCTV surveillance system at your place, always check if there is a feature of night vision in camera unit.
- **Wireless cameras:**  
If you do not want to find the headache of wire installation at your place, just prefer wireless CCTV cameras at your place. These days, CCTV cameras with wireless functions are getting affordable therefore you can find these systems, while choosing video surveillance installation services at your place.
- **Storage capacity:**
